

Commercial Laundry

Combining the Power of Plants & Microbes with Modern Chemistry

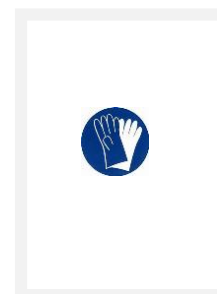

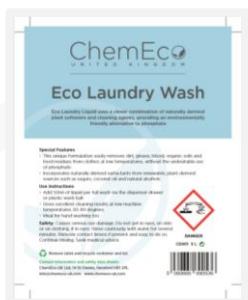

Code: CE901
Name: Eco Laundry Wash
Pack: 2x5L

- ✔ Eco Laundry Liquid uses a clever combination of naturally derived plant softeners and cleaning agents which work synergistically with an environmentally friendly alternative to phosphate
- ✔ The multi-functional benefits offered by this unique formulation, means that it will quickly and easily remove dirt, grease, blood, organic soils and food residues from clothes at low temperatures and the undesirable use of phosphate is successfully avoided
- ✔ Incorporates naturally derived surfactants from renewable, plant-derived sources such as sugars, coconut oil and natural alcohols

Label – Application – Tools – Classification – PPE

Instructions:

- ✔ Add 50ml of liquid per full wash via the dispenser drawer or plastic wash ball
- ✔ Gives excellent cleaning results at low machine temperatures 30-40 degrees
- ✔ Ideal for hand washing too
